## HOUSEHOLD HAZARDOUS WASTE OPENING FOR THE SEASON

The Crow Wing County Household Hazardous Waste (HHW) Facility will open for the season beginning April 24, 2013 at the Crow Wing County Landfill Site. Then, starting in May, the HHW Facility will be open the second Wednesday and second Saturday through the month of October from 8:00 a.m. to 4:00 p.m.

Now is the time to get rid of all those old paint cans, cleaners, and other chemicals that have been sitting in the garage or on basement shelves for years. If disposed of inappropriately, the chemicals may contaminate land, ground water, surface water, or air quality. Removal of this material from garbage will also minimize the health risk to waste haulers and landfill operators.

Citizens may bring hazardous waste from households such as: latex & oil paints, stains, aerosols, automotive, household cleaners, yard and garden pesticides batteries, & mercury containing devices such as thermometers and switches. "We are asking folks to do their part protecting our unique environment and the HHW program is free," stated Crow Wing County Solid Waste Coordinator Doug Morris.

Upon arriving at the County Landfill Site, residents must stop at the Landfill Office. The attendant will discuss the items to be disposed and provide directions to where the HHW Facility is located at the site. It is important to note that all loads coming to the County Landfill must be covered to ensure our roadways are not littered with debris.
